

# COVID-19 Response Technologies

**Queue Management**

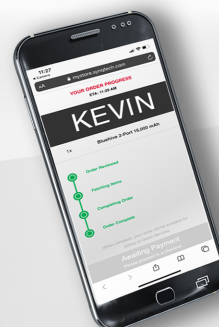

**Touchless Menu**

**Valet Curbside Pickup**

**Valet Curbside Pickup** is a complete system that combines cutting edge technology with outdoor pickup stations. It's everything your store or restaurant needs. Get set up within minutes.

No long term contract. No hardware to buy. Currently in use at over 500 stores across North America.

Your order is ready, Kevin. Please pull forward to Valet Curbside Pickup Space #1.

Keep customers safe with **Qbuster Touchless Menu Solutions** for the Hospitality industry

- **Safe:** Replace printed menus with digital menus displayed right on a customers phone
- **Simple:** Plug + Play (ready to go out of the box)
- **Green:** Eliminate the need to frequently buy disposable menus
- **Affordable:** Systems starting at \$799

**Create a VIP Checkout experience that supports social distancing and improves the customer experience**

**Social Distancing** has disrupted normal front end operations and reduced checkout line capacity by **60%**.

**Qbuster** can help solve this problem by creating **Virtual Lines**, that provide a VIP customer experience. Customers can continue to shop while they wait to be called for check out.

Create a Virtual VIP line that supports social distancing

Create a safer & more comfortable experience

Free customers to continue shopping while they wait

Decrease perceived wait times

Enable customer feedback surveys that automatically boost social media rankings
